**Google Chrome needs to be configured to run Basic and Advanced actions.**

The extension needed to perform these actions is either disabled or not installed.
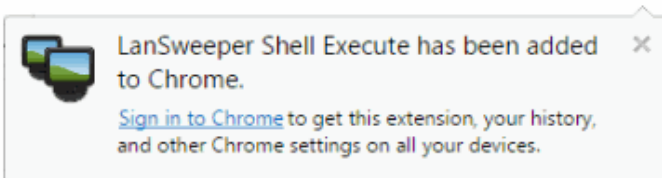

Lansweeper extension not installed

📥 Download the installer here

Run the executable and restart your browser afterwards.

After the browser restart you should get the following message.

You are now ready to use the Lansweeper actions.

⚠ If this doesn't work the extension is probably blacklisted or disabled and you will need to manually instal it from the Chrome webstore.

Lansweeper extension blacklisted

Clicking the button below will open a new tab to the Chrome webstore.
